Subject

Fuel card declined at the pump

What do you need help with?

Card ending 4471 was declined at the Engen in Alberton this morning, 06:40. I had to pay R1,250 for diesel myself. Truck KF-T214, route to Pomona.

Handheld scanner won’t sync

Answered

Department
IT

Depot
City Deep depot

Your request
My Zebra scanner shows “Sync failed” since this morning. Scans from bay 3 aren’t showing on the dispatch screen, so the loads look incomplete.

Reply from IT

Wed 21 Oct, 16:52

Hi Thabo,

Thanks for reporting this. The scanner lost its connection to the depot Wi-Fi after last night’s update. Please hold the power button for 10 seconds to restart it, then tap Sync on the home screen. Your bay 3 scans are saved on the device and will upload once it reconnects.

If it still says “Sync failed” after a restart, bring it to the IT desk at City Deep and we’ll swap it for a spare.

Kind regards,
IT Support, Kopano Freight

Description
My laptop shows “No internet, secured” on KF-Depot-Staff since Monday. My phone connects fine in the same office. I can’t open the route planner or check my email at my desk.

Based on template: Wi-Fi or network problem

Message to the staff member (you can edit it)

Good morning,

Thank you for your request regarding the Wi-Fi connection on your laptop.

The "No internet, secured" message usually means the laptop's saved network certificate has expired. Please select the Wi-Fi icon, choose "KF-Depot-Staff", select "Forget", and then reconnect using your Relay email and password.

If the problem continues after reconnecting, please bring the laptop to the IT desk at City Deep and we will resolve it on site.

Kind regards,
IT Support, Kopano Freight

Wi-Fi or network problem

Template text

Good morning [first name],

Thank you for letting us know about the connection problem at [depot].

Please select the Wi-Fi icon, choose “KF-Depot-Staff”, select “Forget”, and reconnect with your Relay email and password.

If it still doesn’t connect, bring the device to the IT desk at [depot] and we’ll fix it on site.

Kind regards,
IT Support, Kopano Freight
